Memory Chain

- Provides a lighter, yet longer lasting force
- Thinner facial-lingual dimension
- Excellent match for double tying wire ligatures on either the Mini Master Series brackets or the Low Profile Series brackets
- 6.6 feet / 2 m

	Gray	Clear
Closed	854-252	854-255
Short	854-253	854-256
Long	854-254	854-259

Consistent force available in closed, short, and long filaments

*Patent #5,221,033

Color Cube™* Chain Dispenser

851-838

- For 30' (9.20 m) spools
- Holds eight spools
- Spools are held in a compact, hygienic dispenser
- Selected lengths can be dispensed and cut with the built-in blade cutter
- 4 3/8" x 3 5/8" x 3 5/8" (11.2 cm x 9.2 cm x 9.2 cm)

Replacement blade panel for 30' dispenser 851-839

Chain Dispenser

851-833

- For 15' (4.60 m) spools
- Holds five spools
- Hygienic dispenser that is easy to load and unload
- 5" x 3" x 2 7/8" (12.7 cm x 7.6 cm x 7.3 cm)

X-Ring Separators

- Molded from the same strong, durable material that AO uses for ligatures, combining optimum strength with strong rebounding quality
- 13 X-rings per package (1040 separators)

.080/2.03 mm ID, .175/4.44 mm OD	854-251	Teal Non Radiopaque
	854-251B	Blue Radiopaque

WildAid

American Orthodontics, through donations made possible by the purchase of Wildlife Series Elastics and Sea Life Latex-Free Elastics, is proud to support WildAid and its mission to "end the illegal trade of wildlife products within our lifetimes."

WildAid's Vision:

WildAid believes that ending the illegal trade of wildlife can only be achieved by impacting the worldwide demand for these products. WildAid believes that the ecological damage, cruelty and corruption involved in the illegal wildlife trade are unnecessary and morally unacceptable and that these activities constitute a theft from future generations. WildAid believes in a world where local communities can improve their lives without destroying their environment and humanity can survive together with wildlife for generations to come.

WildAid's Approach:

The WildAid conservation approach is unique and effective. Hundreds of millions of dollars are spent every year to protect animals in the wild, yet virtually nothing is spent on stemming the demand for illegal wildlife products. WildAid has created a multimedia distribution network that reaches up to 1 billion people a week with free media space donated by a network of corporate and media sponsors. Over 80 celebrities have donated their time to film public service announcements, which address the illegal trade issue in an attempt to change attitudinal behaviors in areas where old customs have stimulated black markets.

Some of the world's most beautiful and exciting animal species are also its most targeted and endangered. Join American Orthodontics in supporting WildAid and its mission to end the illegal trade of Wildlife.

For more information about WildAid and for steps that you can take to help protect wildlife on the verge of extinction, visit www.americanortho.com/WildAid or www.WildAid.org
